

Amputation Rehabilitation

The staff at Coventry Court Health Center recognizes that amputation radically changes a person's life. Moreover, we understand the deep emotional stress amputation causes and recognize that rehabilitation is more than just physical. Coventry Court Health Center offers rehabilitation and nursing services that help patients maximize recovery and regain independence. We help patients recovery quickly and return home with a renewed sense of self-sufficiency.

Our amputation rehabilitation services are designed to assist both the patient and their family. Key service components include:

- A physician specializing in rehabilitation and an attending physician lead the treatment team and oversee the individualized plan of care.
- 24-hour skilled nursing care is provided and led by a Director of Nursing Services with over 30 years of experience.
- Progressive and personalized treatment plans are developed for each patient and delivered by highly skilled and compassionate staff.
- Wound Care team provides a holistic approach to healing as well as prevention and management of skin breakdown
- Prosthetist & Orthotist available for consults, fittings, assisting with equipment and permanent prosthetics.
- Guided community outings as part of the activity program help to motivate and assimilate patients back into society.
- A dynamic daily therapy schedule is based on the patient's needs, goals, and home environment:
 - ◇ **Physical Therapy**—Focuses on sitting and standing balance, strengthening, mobility and transfer training, daily functional activities and prosthetics training.
 - ◇ **Occupational Therapy**—Focuses on activities of daily living such as eating, bathing, toileting, and dressing.

State-of-the-art equipment for Amputation Rehabilitation:

- ACP equipment including Ultrasound, Diathermia, Electric Stimulation, and Omnicycle are advanced treatment modalities used to facilitate a successful rehabilitation.
