

Wound Care Treatment

The staff at Coventry Court Health Center provides progressive treatment to care for wounds. Coventry Court Health Center offers rehabilitation and nursing services that help patients maximize recovery and regain independence. We help patients recovery quickly and return home with a renewed sense of self-sufficiency.

Our wound care services are designed to assist both the patient and their family. Key service components include:

- A physician specializing in rehabilitation and an attending physician lead the stroke treatment team and oversee the individualized plan of care.
- 24-hour skilled nursing care is provided and led by a Director of Nursing Services with over 30 years of experience.
- Progressive and personalized treatment plans are developed for each patient and delivered by highly skilled and compassionate staff.

State-of-the-art equipment and techniques for Wound Care Treatment:

- ACP equipment including Ultrasound, Diathermia, and Electric Stimulation are advanced treatment modalities used to facilitate a successful rehabilitation.
- Coventry Court has Certified Wound Care Consultants who will use the most advanced wound vac treatments.
- Coventry Court Health Center offers a multi-disciplinary approach to healing wounds. We are made up of a group of professionals who work as a team to give patients comprehensive treatments for wound healing.
- Coventry Court Wound Treatments may help with the following:
 - ◇ Chronic wounds
 - ◇ Traumatic wounds
 - ◇ Non-healing diabetic wounds
 - ◇ Pressure ulcer treatments
 - ◇ Burns
 - ◇ Wounds that do not respond to conventional therapy
