

Coventry Court Health Center provides compassionate 24-hour skilled nursing care and rehabilitation services in a clean, comfortable, friendly, and motivating environment. We believe the most effective way to provide compassionate care is to maintain high medical integrity, build a team spirit among staff, and provide beautiful surroundings for our patients and their visitors.

"I want to thank the entire staff at Coventry Court for the truly excellent work everyone has done, not only caring for my Dad but for being responsible for his remarkable recovery and rehabilitation. When first arriving at Coventry, Dad's condition was very serious and the outlook for a significant recovery bleak. Within two weeks under your care, I noticed a pronounced improvement in my father's ability to communicate and could see the beginnings of him regaining cognitive function ... From that time onward, Dad steadily improved in his physical condition and mental abilities ..."

~ Family of T. Volotta

Delivering personalized care ... when you need it.

At Coventry Court Health Center, we know the value of customer service and prompt attention to detail. That is why we employ only the best, most highly qualified staff and provide continuous education. In addition, on a daily basis we employ more licensed nursing staff at our facility than just about every other facility in the Orange County community. We have on average 14.5 more nurses per day than the California Department of Public Health requires. What this means to our patients, is they receive more attentive, individualized, and higher quality of care than other facilities.
